Advocates List

BDN's mission is to increase the number of women in executive leadership and on corporate boards. Believing that what gets measured gets attention, and thus results; BDN researches and publishes annually the Board of Directors Network Study of Women in the Boardrooms of Georgia Public Companies. It is widely distributed to people interested in corporate governance and diversity including the CEO's of Georgia Public Companies.

The Advocates List has been created for women and men who want to be known as an advocate by name, supporting the BDN mission. Those who subscribe to the Advocates List will have their name listed in the published study as an advocate for a minimum contribution of \$250. The money goes to defer costs associated with the advocacy work BDN does including the study research, publication and public relations efforts to communicate the message that *Women Leaders Add Value*.

Let everyone know that you support increasing the number of women on corporate boards.

Name as you want it listed on the Advocates List:

Your email or address for confirmation only (will not be printed in the study):

Send a check for a minimum of \$250, with the information above to:
